- ▶ Established in 1950 and headquartered in Beijing, SILA has more China resource capability than any other shipping and logistics company, including an asset base of 6 million square metres of bonded and non-bonded warehouses, 4000 transport vehicles, a container shipping line, a freighter airline and courier express services.

In addition to our China-based services, we are also able to provide customers with a complete door to door logistics service for FMCG, steel products and general containerised cargo from world-wide origins via our international partner network.

- Our international general cargo services include:
- Shipping line contract negotiations and management
  - LCL shipping and consolidation
  - Airfreight premium and economy services
  - Express couriers
  - Warehousing
  - Bonded logistics
  - Trucking services
  - Customs clearance services

- Our Australian logistics services include:
- Container unpacking
  - Cross docking
  - Warehousing and distribution
  - Export documentation
  - PRA
  - Export customs clearance
  - Transport (FCL semi and swing-lift, LCL, air, break-bulk)
  - Commercial documentation preparation.

Complementing our international cargo services, SILA also provides customers with a complete range of services to and from all major Australian ports and airports.

Our goal is to create partnerships with our customers so we can work together to improve efficiencies and streamline costs in the supply chain.

Are your biggest FMCG suppliers or customers located in China? Then you need a logistics partner who can help improve efficiencies in your business and reduce costs in your supply chain.

▶ FMCG

▶ Our mature China supply chain provides your business with the resources to capitalize on the Asian Century.

SILA is a part of the Sinotrans and CSC Group international network, China's largest shipping and logistics company. With more warehouses (bonded, free, frozen and chilled), more trucks and more offices located throughout China we have the experience and resources to better meet customers' needs: buyer's consolidation, multi-country consolidation, offshore warehousing and QC requirements.

We can further enhance the Sinotrans experience by shipping sea freight via Sinotrans Container Line weekly service (Australia and Inter Asia), sending airfreight via Sinoair, or using Sino-express for online retailers and small parcel shipments.

Whatever your FMCG needs ex-China, SILA and Sinotrans have a service to suit your business. Complementing our China logistics products, Sinotrans also has its own office and partners located throughout Asia and the rest of the world.

- We are experienced in the handling of all types of steel and metal products including coil, angle bar, stainless steel, jumbo coil, aluminium, gates, pipes and wire.

SILA provides steel industry customers with the opportunity to utilise a single service partner that can provide shipping, transport, container loading, unloading and customs clearance services for break-bulk, containerised shipping or LCL. Customers also have the flexibility to appoint SILA to provide any individual segment of the supply chain that best suits their needs.

Partnering with Sinotrans and CSC, SILA is focussed on delivering a safe, low cost and sustainable supply chain for customers. With the constant changes in overseas and Australian shipping and logistics rules and regulations, risk management and compliance is proving an increasing challenge for business. Many of the steel industry's most reputable members are now choosing the benefits of SILA to fully or partly manage their shipping and logistics supply chain.

We aim to provide our customers with prompt, clear-cut and tailored import and export clearance services and advice for all modes of transport.

► Customs & AQIS

- SILA's supply chain services for Customs include:
- Customs import and export clearance services
  - Self Assessed Clearance (SAC) declarations
  - Consultancy
  - Tariff and valuation advice
  - Tariff concession advice and applications
  - Duty refunds and drawbacks
  - AQIS Import Clearance
  - Compliance auditing
  - Attendance.

As an international trade industry stakeholder, our goal is to be at the forefront of continued industry growth through:

- Good corporate citizenship, both economic and environmental
- Active participation as a member of leading industry groups
- Developing and delivering modern I.T. and efficient clearance processes
- Providing highly motivated and professional staff that have the tools to effectively handle, maintain and nurture our clients' needs.
